

PAM TAPE

ACCESSORY TAPE FOR
SikaProof® SK 3000

DESCRIPTION

Davco PAM membranes are engineered roll of tape comprising of a double sided adhesive, aggressive pressure sensitive adhesive and a weather resistant protective coating on one side and a self adhesive layer on the other side.

It is an accessory product for use in conjunction with our SikaProof® SK3000 waterproofing membranes system.

ADVANTAGES

Areas of use:

1. For repairs of membrane punctures.
2. For sealing end laps of membranes.
3. For detailing around complicated substrates as a termination of membrane.
4. For sealing of nails or protrusions to membrane. Refer to SikaProof® SK3000 Datasheet for the instructions on use of this tape product.

EXPOSURE AND PROTECTION

Following the application and inspection, care should be taken to prevent damage by following trades. Any punctured or damaged areas should be cleaned and patched using SikaProof® SK3000 or Davco PAM tape with minimum 50mm laps all around.

For detailing with SikaProof® SK3000, a liquid applied membrane such as Davco K10 PU may also be used in conjunction with installation of membranes where required

HEALTH & SAFETY

Read the product label and Material Safety Data Sheet (MSDS) before use. Users should acquaint themselves with all risk and safety phrases.

Supply:

SikaProof® SK3000. Tape comes in 120 mm width x 50 metre per roll.
