

ROOFING

SikaRoof® VersiDrain® 30

Water-Retaining Planting Tray And Drainage For Extensive Green Roofs

BUILDING TRUST

SikaRoof® VersiDrain® 30

GENERAL SYSTEM INFORMATION / OVERVIEW

SikaRoof® VersiDrain® 30 is a lightweight interlocking modular green roof tray designed for versatility. Its flexibility allows it to be easily cut to fit different shapes and conforms with ease to curved surfaces. Its easy-to-interlock feature connects adjacent trays together for stability.

SikaRoof® VersiDrain® 30 comprises a network of reservoirs that stores over 13.2 litres per square metre of rainwater for irrigating the plants, thus reducing watering requirements and promoting plant growth in a sustainable manner.

SikaRoof® VersiDrain® 30 has a smooth and flat base, which allows it to be placed directly on the roof's waterproofing membrane. It is manufactured from UV-stabilised recycled polypropylene and supports all international green building certifications.

SikaRoof® VersiDrain® 30 helps mitigate the impact of urban stormwater runoff by reducing the discharge to storm drains during periods of heavy downpour.

SikaRoof® VersiDrain® 30

APPLICABLE AREAS

- Extensive green roofs
- Planter boxes
- Roadside turfing

ADVANTAGES

- Reduces irrigation requirement
- Protects waterproofing membrane
- Enable on-site rainwater retention
- Mitigate urban runoff

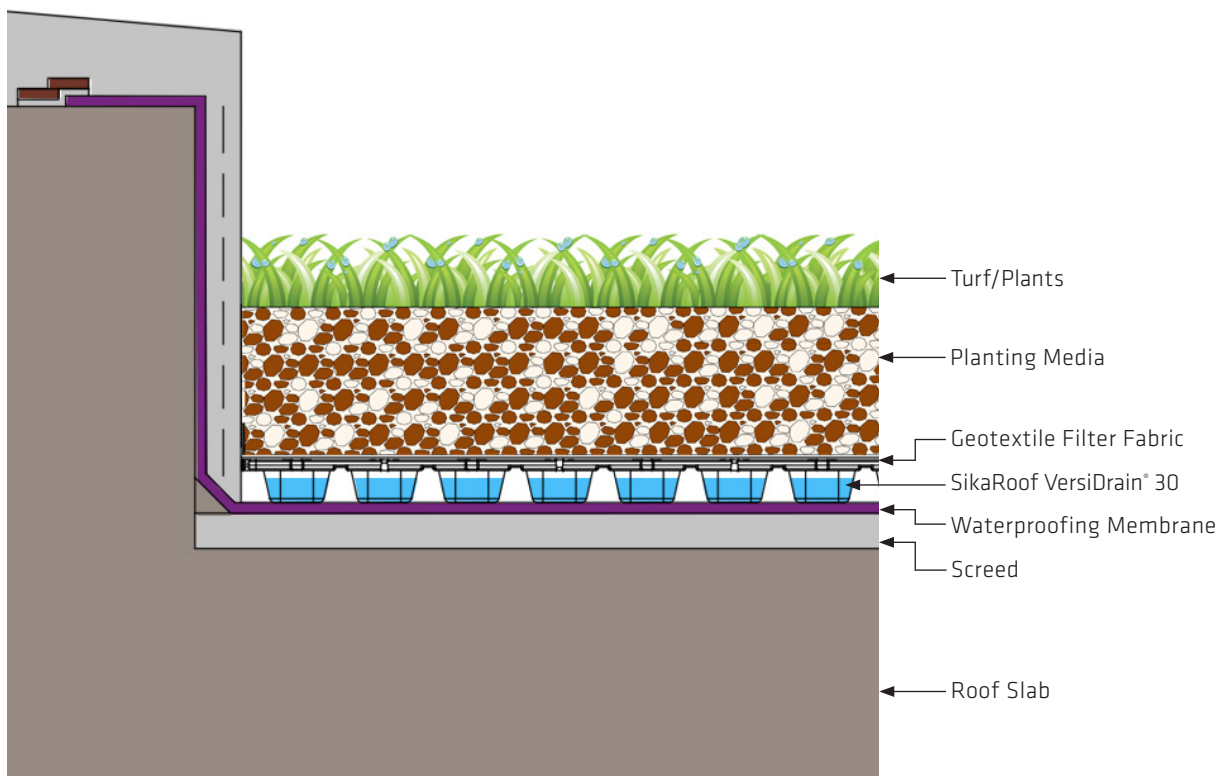

SikaRoof® VersiDrain® 30

BASIC DESIGN SPECIFICATION / TYPICAL DETAIL

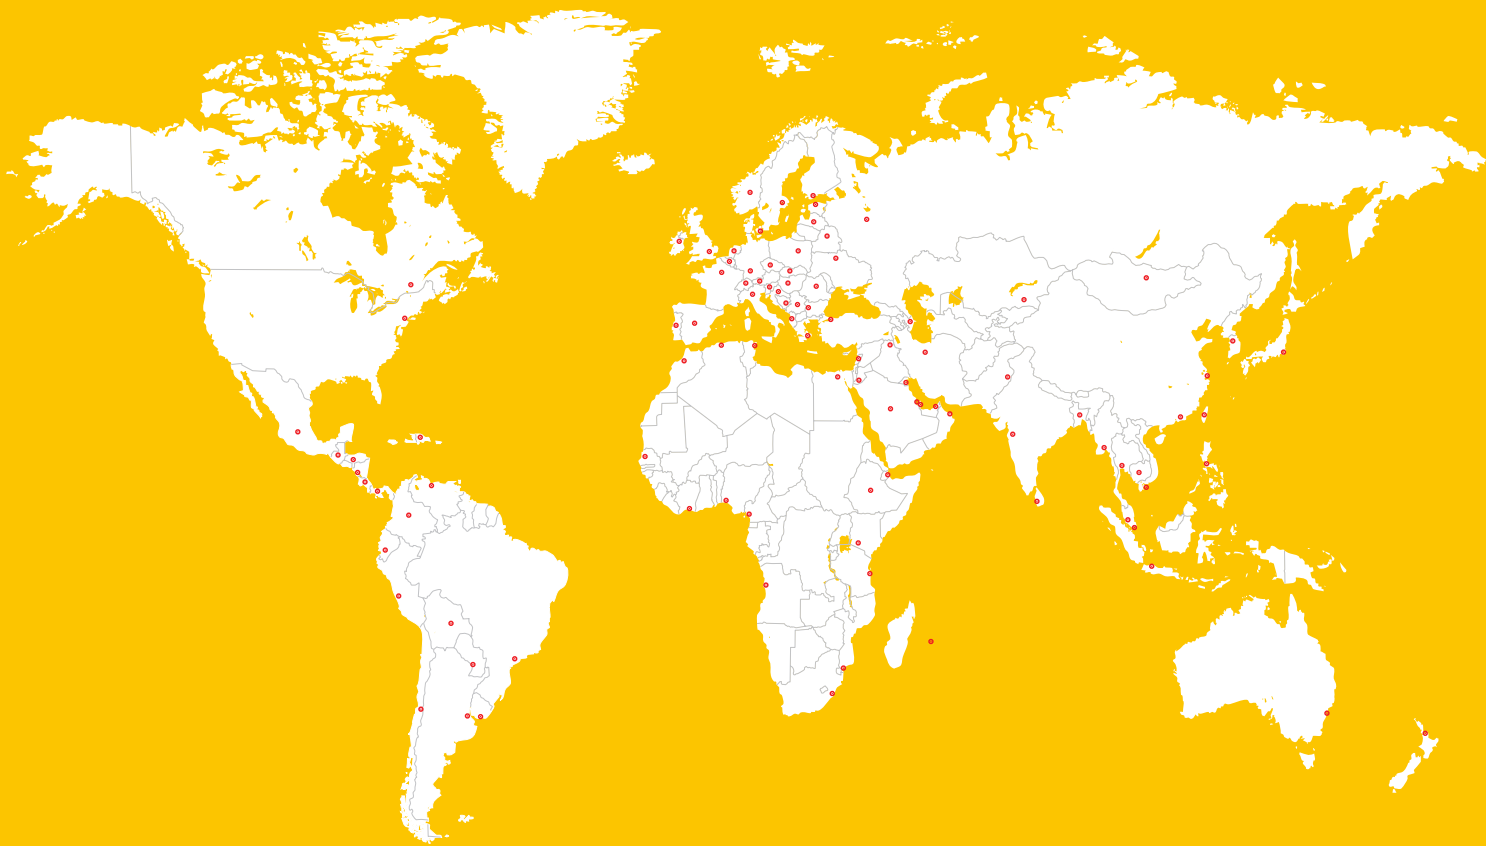

Technical Specifications	Data
Material	PP
Size	500 x 500 x 30 mm
Soil Depth	*variable
Reservoir Capacity	13.2 L/m ²

*according to design preference and parameter

TYPICAL DETAIL

GLOBAL BUT LOCAL PARTNERSHIP

FOR MORE PRODUCT INFORMATION:

WE ARE SIKA

Sika is a specialty chemicals company with a globally leading position in the development and production of systems and products for bonding, sealing, damping, reinforcing, and protection in the building sector and industrial manufacturing. Sika has subsidiaries in 103 countries around the world and, in over 400 factories, produces innovative technologies for customers worldwide. In doing so, it plays a crucial role in enabling the transformation of the construction and transportation sector toward greater environmental compatibility. With more than 33,000 employees, the company generated sales of CHF 11.20 billion in 2025.

Our most current General Sales Conditions shall apply.
