

## PRODUCT DATA SHEET

# SikaRoof® VersiWall GT Hexagonal Nut

## HEXAGONAL NUT FOR WALL MOUNTED LANDSCAPE GREENING

### DESCRIPTION

SikaRoof® VersiWall GT Hexagonal Nut is a nut that is used on pilasters to create planting pot mounting points to create green wall facades. Nuts are manufactured from stainless steel (SUS304), and it has two versions for continuous mounting and edge mounting. SikaRoof® VersiWall GT Hexagonal Nut is used in conjunction with SikaRoof® VersiWall GT and SikaRoof® VersiWall GT Pilaster to create a green wall system.

### USES

Nuts are used to create green walls on either internal or external wall facades.

### CHARACTERISTICS / ADVANTAGES

- Hooking of planting pots onto pilasters
- Resistant to biological attack by moulds and algae
- Chemically resistant to acids, alkalis, oils and soil chemicals

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

## IMPORTANT CONSIDERATIONS

For more information, please contact Sika Sales Personnel.

## ECOLOGY, HEALTH AND SAFETY

This product is an article as defined in article 3 of regulation (EC) No 1907/2006 (REACH). It contains no substances which are intended to be released from the article under normal or reasonably foreseeable conditions of use. A safety data sheet following article 31 of the same regulation is not needed to bring the product to the market, to transport or to use it. For safe use follow the instructions given in this product data sheet. Based on our current knowledge, this product does not contain SVHC (substances of very high concern) as listed in Annex XIV of the REACH regulation or on the candidate list published by the European Chemicals Agency in concentrations above 0.1 % (w/w)

## LEGAL NOTES

The information, and, in particular, the recommendations relating to the application and end-use of Sika products, are given in good faith based on Sika's current knowledge and experience of the products when properly stored, handled and applied under normal conditions in accordance with Sika's recommendations. In practice, the differences in materials, substrates and actual site conditions are such that no warranty in respect of merchantability or of fitness for a particular purpose, nor any liability arising out of any

legal relationship whatsoever, can be inferred either from this information, or from any written recommendations, or from any other advice offered. The user of the product must test the product's suitability for the intended application and purpose. Sika reserves the right to change the properties of its products. The proprietary rights of third parties must be observed. All orders are accepted subject to our current terms of sale and delivery. Users must always refer to the most recent issue of the local Product Data Sheet for the product concerned, copies of which will be supplied on request.
